

Sunland Logistics Solutions Introduces Expanded Management Talent in Charleston, SC

Sunland Logistics Solutions announces the expansion of its management talent based in Charleston, SC. While the South Carolina headquartered third party logistics company continues grow as a national provider with distribution and fulfillment centers across the United States, the team remains focused on building the services and partnership support it provides to the thriving Charleston, SC business community.

Jay Sarkar, Director of Solutions & Contracts

Jay has recently transitioned to the Business Development team at Sunland in his new role as Director of Solutions & Contracts. With both an engineering and business education background, he will leverage his experience in lean manufacturing and operations management to lead the develop of efficient logistics solutions and to help establish a strong partnership foundation between Sunland and its customers. Jay has enjoyed living in the Charleston area with his family for about six years and looks forward to building more relationships in the business community with his new role.

Candler Lowder, Site Manager

Candler joined the Sunland team in 2021 as Site Manager for Piggly Wiggly Rd. Distribution Center in North Charleston and two distribution facilities Sunland operates on North Rhett Ave. in Hanahan, SC. With extensive operations management experience with global third-party logistics companies, Candler's leadership provides both Sunland's team members and customers in the Charleston area with the support required to achieve both daily performance and strategic goals. She has lived in the Charleston area for nearly twelve years and is a member of the Charleston Maritime Association.

Tillman Millhouse, Quality Manager

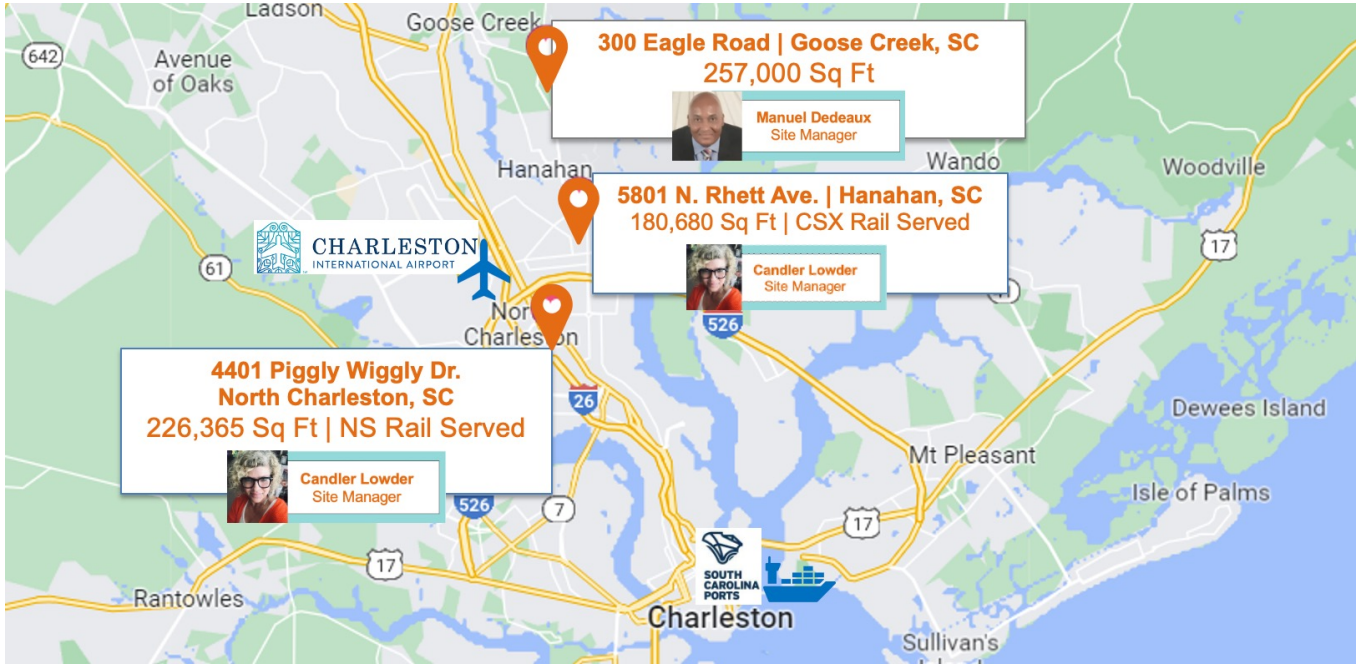

Tillman recently transitioned from an operations management position at Sunland to his new role in Quality. He joined Sunland after gaining valuable experience working in intermodal operations and risk management consulting. He looks forward to supporting Sunland's team in furthering its continuous improvement focus and quality program. Tillman is a Summerville native and Citadel graduate with a masters in Transportation Logistics from South Carolina State University.
